

UDIT YADAV

📍 Jaipur, Rajasthan, India ✉ udiityadav@jkl.u.edu.in ☎ 8607143505 📧 in/udit-yadav-6bb2bb366 🌐 github.com/Uditrao

PROFESSIONAL SUMMARY

Frontend Developer and CSE student skilled in **HTML, CSS, JavaScript, and React**, with strong problem-solving skills and experience building responsive web interfaces. Proficient in **Python, C, and SQL**, and eager to learn modern web technologies.

PROJECTS

BOLI (Local Language Learning Platform)

github.com/Uditrao/HackJKLU

February 2026

- Built an AI-powered, game-based language learning platform enables users to acquire language skills through contextual interaction and real-time feedback.
- Developed a Next.js backend with LLM-based evaluation to score user voice/text inputs and drive dynamic progression (XP, levels, task completion).
- Implemented speech-to-text and text-to-speech pipeline to create an interactive, voice-driven learning experience with automated flashcard generation.

ReFound (Lost and Found System)

lost-found-red-ten.vercel.app/

November 2025

- Built a role-based Lost & Found system with claim verification, admin approval, and real-time user notifications using Flask.
- Developed a structured backend with database integration to manage items, claims, user identities, and verification history efficiently on SQL.

(Property Law Website)

property-laws.vercel.app/

April 2025 - May 2025

- Created an AI-assisted legal platform that analyzes user case descriptions and retrieves relevant property laws using a structured database approach.
- Designed a keyword-driven and case-description analysis system to map user problems to relevant constitutional and statutory provisions.

EXPERIENCE

Teaching Assistant

JK LakshmiPat University, Jaipur

January 2026 - Present

- Assisted students in C programming Coding Hours with coding concepts, debugging, and problem-solving.
- Guided students in C programming and evaluated Coding Hour performance with feedback.
- Supported faculty in ensuring smooth lab sessions and tracking student progress.

SKILLS

Frontend Development: HTML, CSS, JavaScript, React, Tailwind

Programming Languages: Python, C.

Databases & Storage: MongoDB, SQL

AI/ML & GenAI(Still Learning): Scikit-learn, Pandas, NumPy, LLM Applications, Prompt Engineering .

Problem Solving: Strong analytical and logical thinking skills

ACHIEVEMENTS

1st Runner UP | Pre hackathon

JK LakshmiPat University • 24 hr Hackathon

February 2026

- Achieved 1st Runner-Up in a Pre-Hackathon by designing and implementing a functional prototype under strict time constraints.
- Build an innovative application leveraging modern web technologies and intelligent evaluation mechanisms.
- [Check Certificate](#)

LEADERSHIP & VOLUNTEERING

Core Member – Tug of War | College Sports Fest

JK LakshmiPat University

September 2025

- Served as a core member of the Tug of War team, contributing to team coordination, match planning, and execution.
- Assisted in organizing practice sessions, managing team logistics, and maintaining discipline during events.

EDUCATION

Bachelor of Technology (B.Tech) in Computer Science Engineering

[JK LakshmiPat University] • [Jaipur,Rajasthan] • 2028 • CGPA : 9.15

Senior Secondary (Class XII)

Euro International School • Rewari, HARYANA • 2023 • 85 %

CERTIFICATIONS

• **University of Michigan - C Programming Language (Coursera)**
